

ASCONIUM® 500

NEW anticorrosion additive

In response to the increasing corrosion protection requirements of water-based DTM coatings, ASCOTEC has developed **ASCONIUM® 500**, an advanced **liquid corrosion inhibitor**.

Easy to incorporate into water based coatings

Low dosage rates ($\approx 1\%$)

VOC free

Heavy metal free

Suitable in most binder systems

ASCONIUM® 500 enhances the effectiveness of water-based DTM coatings, **surpassing** traditional anti-corrosion pigments.

ASCONIUM® 500 is formulated without heavy metals or VOCs, while maintaining **gloss** and **adhesion** properties.

"Protect your metal without compromise".

Water-based Acrylic DTM - C4, High Class @100 μ m DFT (ISO 12944)

Blank

ASCONIUM® 500, @1%

- 🔥 Salt spray test ISO-9227
- 🔥 Substrate : SB Steel SA2,5
- 🔥 Duration : 720h

- 🔥 1 Layer, DFT 100 μ m
- 🔥 Adh. After 7 days : ISO-2409
