

## Attestation de Diagnostic Confirmé Responsible Care®

Nous soussignés Magali Smets, Directrice Générale de France Chimie et Philippe Prudhon, Directeur des Affaires Techniques de France Chimie, attestons que l'entreprise **ASCOTEC** est engagée dans une démarche de Responsabilité Sociétale des Entreprises (RSE) dans le cadre du programme Responsible Care® confirmée par un tiers extérieur.

La démarche inclut un auto-diagnostic Responsible Care® réalisé par l'entreprise, accompagné par un évaluateur qualifié, ainsi que l'établissement d'un plan d'actions pour une amélioration continue des performances RSE, validé par un comité tiers.

France Chimie soutient l'auto-diagnostic Responsible Care® confirmé, afin de :

- **Se comparer** avec les autres entreprises et montrer la progression en termes de RSE
- **Se préparer** à mettre en place un label RSE, une norme ISO...
- **Anticiper** les obligations de communication des indicateurs extra-financiers qui s'appliqueront aux PME d'ici 2027 (sur les données 2026).

Responsible Care® est le programme RSE sectoriel de la chimie.  
Cette attestation est valable 3 ans.

THE INTERNATIONAL COUNCIL OF CHEMICAL ASSOCIATIONS

# Responsible Care<sup>®</sup> Global Charter

**Responsible Care** is the global chemical industry's unifying commitment to the safe management of chemicals throughout their life cycle, while promoting their role in improving quality of life and contributing to sustainable development.

*As a signatory to the Responsible Care Global Charter my company will actively strengthen the Responsible Care initiative worldwide and is committed to:*

- 1 A Corporate Leadership Culture** that proactively supports safe chemicals management through the global Responsible Care initiative
- 2 Safeguarding People and the Environment** by continuously improving our environmental, health and safety performance; the security of our facilities, processes and technologies; and by driving continuous improvement in chemical product safety and stewardship throughout the supply chain
- 3 Strengthening Chemicals Management Systems** by participating in the development and implementation of lifecycle-oriented, sound-science and risk-based chemical safety legislation and best practices
- 4 Influencing Business Partners** to promote the safe management of chemicals within their own operations
- 5 Engaging Stakeholders**, understanding and responding to their concerns and expectations for safer operations and products and communicating openly on our performance and products
- 6 Contributing to Sustainability** through improved performance, expanded economic opportunities and the development of innovative technologies and other solutions to societal challenges
